

Charge easy Pay monthly

You can spread the cost of your Pod Point home charger and installation with your Nissan monthly vehicle instalments, making it easy and affordable to charge your EV at home.

Speak to a member of the Nissan dealership team to find out more.

pod POINT

POD POINT

Smart Home Charging

Join the Pod Point ecosystem for smarter home, public and workplace charging. Its extensive network connects drivers with over 7,300 charging bays, there's easy in app features to help you charge at home more conveniently, as well as expert support from customer service.

Charging at home safely

Why are home charge points better than 3-pin plugs?

It will take longer to charge your EV with a 3-pin plug as they are not designed to support the kinds of loads that your vehicle requires.

Why do I need to install a home charger?

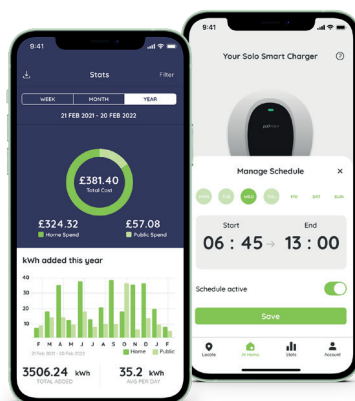

Dedicated charge points are specifically designed to handle the load and time periods that EV charging require.

They are installed on new electrical circuits and meet the evolving regulatory standards to guard against electrical risk. This makes dedicated home chargers a far safer choice.

The Pod Point App enables you to

- ✓ **Monitor** home, public and workplace charger activity remotely.
- ✓ **Schedule** cheaper charging times.
- ✓ **Locate** convenient public charge points.
- ✓ **Securely** pay for public charge points.

- ✓ **Charging.** 7kW charging power.
- ✓ **Connectors.** Universal socket or tethered version - (Type 1 - 4.8m or Type 2 - 7.5m).
- ✓ **Warranty.** The partnership with Pod Point gives customers an upgraded 5 year warranty as standard.
- ✓ **Charge activity monitoring.** Track the cost of every kWh used.
- ✓ **Schedule charging remotely.** Schedule your EV to charge during off-peak hours.
